

BS COMMERCE

The Department of Accounting & Finance, Faculty of Management Sciences is going to offer Bachelor of Science in Commerce in Fall 2021 semester. BS Commerce is a 4 years educational degree. The courses of BS Commerce covers a number of fields such as Commerce, Trade management, and Business Management.

The BS Commerce program is designed for individuals who want to develop a career in the areas of commerce, trade, business and economic management. It is a focused program that provides rigorous training in developing analytical and decision-making skills. The program employs state of the art teaching methods and technological resources to give a real world experience to students. Our interactive, collaborative environment, internationally qualified and experienced faculty, and unmatched personalized support will give you a head start to compete and succeed in today's business environment.

PROGRAM GOALS AND OBJECTIVE.

The aim of the program is to give students an understanding of Commerce that will be useful throughout their career. We require students to master some techniques, and to understand their practical applications.

The aim is to help students to develop an understanding that not only is Commerce but also in Trade management, and Business Management. It is a discipline concerned not only with computational skill but, also central to the way in which both management internally, and also various stakeholders externally (including investors, lenders, customers, the government and the public) perceive, understand, and seek to change and control the nature of organization.

Strongly emphasizing the development of analytical skills, the courses offer solid grounding and professional competencies in all aspects of accounting and finance required for careers in numerous sectors. This course covers not only in-depth courses relating to accounting and finance, but also focuses on other relevant courses such as business research methods,

business communication and management ethics. We expect students to engage with both theory and practice, and to develop a critical understanding of how Accounting, Finance and Commerce operate in a range of different institutional settings.

- i. Gain a focused understanding of finance and accounting functions in a business.
- ii. Inculcate practical decision-making skills based on financial and accounting frameworks.
- iii. Provide a pathway to professional certifications (CA, ACCA and CFA)
- iv. Develop a critical understanding of how Accounting and Finance operate in a range of different institutional settings.
- v. A holistic university experience with ample chances for personal development
- vi. knowledge and conceptual understanding of the basic theoretical approaches and contemporary issues in financial accounting, management accounting and finance;
- vii. Foster in students a critical and flexible approach to accounting and finance issues, within local and international context.
