Virtual Library

- **Gale Directory Library:** (Access available in Lincoln Corner, Central Library)

The Gale Directory Library hosts a variety of directory products. Use it to search, sort and export information from both current directory editions as well as prior editions that are maintained as searchable back files. Multiple directories can be cross-searched or users can mine individual directories for the particular kinds of data they contain, such as financial information for companies, circulation figures for publications, and much more.

- **Gale Virtual Reference Library:** (Access available in Lincoln Corner, Central Library)

Gale Virtual Reference Library is a database of encyclopedias and specialized reference sources for multidisciplinary research. These reference materials once were accessible only in the library, but now you can access them online from the library or remotely 24/7.

- **Gale Science in Context:** (Access available in Lincoln Corner, Central Library)

Gale Science in Context is an engaging online experience for those seeking contextual information on hundreds of today's most significant science topics. Gale's authoritative reference content is merged with full-text magazines, academic journals, news articles, experiments, images, videos, audio files and links to vetted websites organized into a user-friendly portal experience.

- **Global Issues in Context:** (Access available in Lincoln Corner, Central Library)

Global Issues in Context offers international viewpoints on a broad spectrum of global issues, topics, and current events. Featured are hundreds of continuously updated issue and country portals that bring together a variety of specially selected, highly relevant sources for analysis of social, political, military, economic, environmental, health, and cultural issues. Each of these gateway pages includes an overview, unique "perspectives" articles written by local experts, reference, periodical, primary source and statistical information. Rich multimedia - including podcasts, video, and interactive graphs - enhance each portal. Use Browse Issues and Topics, Country Finder, Basic Search or Advanced Search to explore the database.

- **GREENR:** (Global Reference on the Environment, Energy, and Natural Resources)

The Global Reference on the Environment, Energy, and Natural Resources focuses on the physical, social, and economic aspects of environmental issues. Topic, organization, and country portals form research centers around issues covering energy systems, health care, agriculture, climate change, population, and economic development. Portals include authoritative analysis, academic journals, news, case studies, legislation, conference proceedings, primary source documents, statistics, and rich multimedia. Use Browse Issues and Topics, World Map, Basic Search or Advanced Search to explore the database.

- **Grzimek's Animal Life:** (Access available in Lincoln Corner, Central Library)

A digital version of the original 17-volume encyclopedia, Grzimek's Animal Life includes the original 9,000-plus pages of peer-reviewed articles and photos, as well as video materials.

Ebrary Public Library: (with Elibro & Elivro) (Access available in Lincoln Corner, Central Library)

All the rivers (Indus, Sutluj, Bias, Ravi, Chenab, and Jehlum) flow in Punjab. Punjab is the most populous province of Pakistan containing 7,25,85,000 people with density of population 353 people per square kilometers while average density of the country is 164 people per square kilometers. The famous cities of Lahore, Faisalabad, Rawalpindi, Gujranwala, and Multan are also in Punjab.

The province is the custodian of ancient civilizations of Harappa and Taxila. Forts, castles, parks, mosques and mausoleums are the heritage of Muslim art of architecture, which narrate the story of Islamic glory in Indo-Pak subcontinent.

Punjab is the most prosperous, most developed, and most populous province of Pakistan. Its economy, is the largest one has been quadrupled since 1972. Although the industrial sector is well developed, the economy is agriculture based. The province has always contributed a lot in the national economy and still has the dominant share in overall economic progress of Pakistan.....

Israel Under Siege

The Problem Is Palestinian Rejectionism

Yosef Kuperwasser and Shalom Lipner

2

Peace negotiations between Israel and the Palestinians have failed miserably. The reason, write two senior Israeli government officials, is not disagreement over specific issues, such as settlements or Jerusalem, but something much more fundamental: the Palestinians' refusal to recognize Israel as a Jewish state.

Israel's Bunker Mentality *Ronald R. Krebs*

10

The greatest danger to Israel comes not from without—in the form of Palestinian intransigence—but from within. The ongoing occupation of the territories is destroying Israel's values and viability. It breeds an aggressive, intolerant ethnic nationalism and causes political gridlock, empowering an ultrareligious underclass that refuses to contribute and lives off the state.

Essays

The Broken Contract *George Packer*

20

Like an odorless gas, economic inequality pervades every corner of the United States and saps the strength of its democracy. Over the past three decades, Washington has consistently favored the rich—and the more wealth accumulates in a few hands at the top, the more influence and favor the rich acquire, making it easier for them and their political allies to cast off restraint without paying a social price.

The Wisdom of Retrenchment

Joseph M. Parent and Paul K. MacDonald

32

The United States can no longer afford a world-spanning foreign policy. Retrenchment—cutting military spending, redefining foreign priorities, and shifting more of the defense burden to allies—is the only sensible course. Luckily, that does not have to spell instability abroad. History shows that pausing to recharge national batteries can renew a dominant power's international legitimacy.

Humanitarian Intervention Comes of Age

Jon Western and Joshua S. Goldstein

48

Despite the fall of the Qaddafi regime in Libya, humanitarian intervention still has plenty of critics. But their targets are usually the early, ugly missions of the 1990s. Since then—as Libya has shown—the international community has learned its lessons and grown much more adept at using military force to save lives.

The True Costs of Humanitarian Intervention

Benjamin A. Valentino

60

Intervening militarily to save lives abroad often sounds good on paper, but the record has not been promising. The ethical calculus involved is almost always complicated by messy realities on the ground, and the opportunity costs of such missions are massive. Well-meaning countries could save far more lives by helping refugees and victims of natural disasters and funding public health.

Can Europe's Divided House Stand? *Hugo Dixon*

74

Most pundits argue the eurozone has only two options: break up or create a fiscal union to match its monetary one. In fact, there's a third, and better, path: adopt tighter market discipline, bailing out illiquid countries while letting truly insolvent ones go bust. The result would be a collection of fitter economies and a Europe strong enough to play a big role on the world stage.

Why We Still Need Nuclear Power *Ernest Moniz*

83

The world cannot let the March disaster at Japan's Fukushima power plant scare it into forgoing the benefits of nuclear energy—a cheap, reliable, and safe source of electricity. Still, writes a former U.S. undersecretary of energy, the United States does need to update its safety standards and reform its handling of nuclear waste.

The Dying Bear *Nicholas Eberstadt*

95

Since the collapse of the Soviet Union, Russia has been gripped by a devastating population crisis almost unprecedented during peacetime. The country's demographic decline will undermine the Kremlin's plans for economic and military modernization—and could make Moscow more dangerous in the international arena.

Is Indonesia Bound for the BRICs? *Karen Brooks*

109

As Indonesia hosts a number of high-level summits this year, it looks set to take its place among the world's economic superstars. But celebrations are premature: although the country has made great strides, its gains are reversible. For the country to continue to prosper, Jakarta must address rampant corruption and poor governance.

The Sick Man of Asia *Yanzhong Huang*

119

In their single-minded pursuit of economic growth, China's leaders have long overlooked public health—which, by some measures, is now worse than under Mao. Despite recent reforms, China's citizens keep getting sicker, threatening the country's health-care system, the economy at large, and even the stability of the regime.

Counterrevolution in Kiev *Rajan Menon and Alexander J. Motyl*

137

President Viktor Yanukovich has led Ukraine, no stranger to crisis, into yet another round of turmoil. He has rolled back democracy and the rule of law while failing to take on corruption or bring the country closer to Europe. Now, much of the public has turned against him—and the nation could be headed for still more serious unrest.

Reviews & Responses

The Leadership Secrets of Bismarck *Michael Bernhard* 150

China is hardly the first great power to make authoritarian development look attractive. As Jonathan Steinberg's new biography of Bismarck shows, Wilhelmine Germany did it with ease. But can even successful nondemocratic political systems thrive and evolve peacefully over the long run? The answer depends on whether authoritarian elites can tolerate sharing power.

Africa Unleashed *Edward Miguel* 155

Steven Radelet's accessible new book argues that much of the credit for Africa's recent economic boom goes to its increasingly open political systems. But Radelet fails to answer the deeper question: why some countries have managed to develop successful democracies while others have tried but failed.

How Central Is Land for Peace?
Oded Naaman and Mikhael Manekin; Elliott Abrams 161

Israeli settlements—and the military occupation needed to defend them—present a central obstacle to peace and to the creation of a viable Palestinian state, argue Oded Naaman and Mikhael Manekin; Elliott Abrams disputes this core claim.

Manufacturing Globalization
Richard Katz; Robert Z. Lawrence; Michael Spence 166

Is globalization to blame for rising unemployment and income inequality in the United States? Richard Katz and Robert Lawrence argue that other factors are at fault. Perhaps, says Michael Spence—but the overarching effects of globalization cannot be denied.

Point of Order *Amitai Etzioni; G. John Ikenberry* 172

Before complaining about China's refusal to buy into the liberal world order, argues Amitai Etzioni, the West should stop moving the goalposts by developing new norms of intervention, such as "the responsibility to protect." G. John Ikenberry responds that Beijing already has more than enough inducement to sign up.

Recent Books on International Relations 177

Including Richard Cooper on the costs of corruption, Walter Russell Mead on Texas Governor Rick Perry's political philosophy, Robert Legvold on inequality in Russia, and Nicolas van de Walle on the legacy of a massacre in South Africa.

The articles in Foreign Affairs do not represent any consensus of beliefs. We do not expect that readers will sympathize with all the sentiments they find here, for some of our writers will flatly disagree with others, but we hold that while keeping clear of mere vagaries, Foreign Affairs can do more to inform American public opinion by a broad hospitality to divergent ideas than it can by identifying itself with one school. We do not accept responsibility for the views expressed in any article, signed or unsigned, that appears in these pages. What we do accept is the responsibility for giving them a chance to appear.

قواعد النشر وشروطه

تود هيئة "مجلة البحوث الفقهية المعاصرة" أن تبدي للإخوة الباحثين أن قواعد النشر في المجلة تقضي بما يلي :

- (١) أن يكون البحث المراد نشره مبنياً على الفقه الإسلامي .
- (٢) أن ينصب البحث على القضايا، والمسائل، والمشكلات المعاصرة، والبحث عن الحلول العلمية والعملية لها في الفقه الإسلامي، ومفاهيمه المعتمدة عند أهل السنة والجماعة.
- (٣) أن يتصف البحث بالموضوعية، والأصالة، والشمول، واتباع المنهج العلمي في البحث من حيث الاعتماد على المراجع الأصلية والإسناد والتوثيق وتخريج الأحاديث مع إيضاح درجتها.
- (٤) أن يكون البحث مما لم يسبق نشره في كتاب، أو مجلة، أو أي أداة نشر أخرى. ويشمل ذلك البحوث المقدمة للنشر إلى جهة أخرى أو تلك التي سبق تقديمها للجامعات أو الندوات العلمية وخلافها .
- (٥) بيان أرقام الآيات الكريمة والمراجع العلمية في هوامش الصفحات مع ترجمة موجزة عن العلم أو الأعلام الذين وردت الإشارة إليهم .
- (٦) بيان المراجع العلمية ومؤلفيها في نهاية كل بحث حسب الحروف الهجائية مع بيان مكان وزمان طباعتها وجهة نشرها .
- (٧) أن يرفق بالبحث إفادة تتضمن عدم نشره من قبل .
- (٨) أن يختم البحث بخلاصة تبين النتيجة والرأي، أو الآراء التي تضمنها .
- (٩) أن يرفق بالبحث خلاصة مستوفية له لترجمتها إلى اللغة الإنجليزية .
- (١٠) ألا تقل صفحات البحث عن عشرين صفحة من صفحات المجلة .
- (١١) يكتب اسم الباحث ثلاثياً مع وظيفته العلمية إن وجدت .
- (١٢) يتم تحكيم البحوث من قبل فقهاء وعلماء متخصصين وفقاً لنموذج يبين قواعد التحكيم، وإجراءاته. ومن هذه القواعد عدم معرفة المحكمين لأسماء الباحثين، وعدم معرفة الباحثين لأسماء المحكمين سواء وافقوا على نشر بحوثهم أو أبدوا بعض الملاحظات عليها أو رأوا عدم نشرها.
- (١٣) البحوث التي لا تنشر لا تعاد لأصحابها .

* ترتيب البحوث في المجلة يخضع للاعتبارات الفنية فقط .

* "الآراء المنشورة في المجلة تعبر عن وجهة نظر أصحابها" .
