USER GUIDE

(To Download Original Microsoft Software from NSSA Portal)

This unofficial document is prepared to guide the <u>"NEW USERS"</u> to download the Microsoft Software from NSSA Portal.

Microsoft has taken initiative of providing free Microsoft software for personal use as part of Academic Alliance via HEC. In this regard a <u>National Student Software Accessibility Portal (NSSA)</u> has been created. NSSA is a web-based software distribution and management application hosted by e-academy, Microsoft. The portal enables you to directly download the Microsoft software from the portal. You can download and activate it for your personal use. The portal is available to international Islamic University as part of Academic Alliance with Microsoft through HEC [Source:http://www.iiu.edu.pk/index.php?page_id=9587].

Follow the following steps to easily access the portal and download the software:

- 1) Get your iiu email account id like <u>yourname[.regNo]@iiu.edu.pk</u> (only if you do not already have).
- 2) Go to <u>www.iiu.edu.pk</u> and Click National Student Software Portal (Figure-1)

Figure-1 IIU Portal (Home) Page [www.iiu.edu.pk]

3) You will get an interface (screen) as shown in Figure.2. Now a) Read the instruction carefully and then b) click the hyperlink saying (National Student Software Accessibility Portal (NSSA), Figure-2.

Figure-16 Downloading Progress bar interface/Screen

18) Once software is downloaded on your computer in order to Install, Run/ Execute downloaded file. During Installation the Setup/Installation Wizard will ask you to enter the Product-Key. Remember the Product key will be in your iiu email inbox as it would have been emailed to you as soon as you downloaded the software in Step-17. Enter that key and Enjoy using the original Microsoft Software.

Special Instructions: In order to make the downloading process easier and quicker, IT Department has downloaded a large number of software and placed them on a local server. You can download those software directly from the local server through IP Address 192.168.20.10. When you'll enter into local server you'll find a folder "MICROSOFT PORTAL SOFTWARE". Locate your required software, download it on your computer and install BUT REMEMBER do not forget to place on order as discussed in upper steps so that you may get the Product key in your email box, without which you'll not be able to install the software. If you do not find a software that is present in DreamSpark's list for download (as per package agreement), then please email at <u>webmaster@iiu.edu.pk</u> and drop your request to download and add that software in local server.

Hope that this unofficial tutorial/guide will help you to download/install the original software of Microsoft.
