

## **Dr. Farhan Younas**

**Assistant Professor, Biological Sciences**

**SA-CIRBS, Faculty of Basic and Applied Sciences, IIU, Islamabad**

Dr. Farhan Younas joined Sulaiman Bin Abdullah Aba AlKhail-Centre for Interdisciplinary Research in Basic Sciences (SA-CIRBS), International Islamic University Islamabad in October 2018. He did his MS in Biosciences with specialization in Biotechnology and Microbiology from University of Kaiserslautern, Germany. He completed his PhD from Jacobs University Bremen, Germany. He has research experience from some very well known research institutes and labs in Germany, including Max Planck Institute for experimental medicine, Göttingen, Germany.

The main focus of his PhD work was to study outer membrane channel forming proteins (Porins) in both Gram-positive and Gram-negative bacteria. The proteins serve as main channels for antibiotic transport. The projects he worked on received funding from prestigious Innovative medicine Initiative (IMI).

During his academic career, he has published various research articles in globally recognized research journals. He has presented his research work at various International conferences.

His current research interests are, Multidrug resistance, Microbial Behavior and alternatives to Antibiotics.
