

Invitation & Program of 4th Annual Open House

Following the successful completion of its First, Second and Third Open House in May 2010, May 2011 and May 2012 respectively, the Faculty of Engineering and Technology is going to conduct its "4th Open House". This event will include R & D projects as well as industrial stall displays & presentations. The primary objective is to familiarize the Educational and Industrial Community of the potential of the students, quality of education, state of the art technology and the projects accomplished under the supervision of our dynamic and highly qualified faculty. The Professionals from Industry, Organizations, Institutions, Academia and the students from relevant area universities and colleges are invited to attend this event. The tentative schedule is listed as under

- ◆ Main Event
- ◆ Students R&D project display and demonstrations
- ◆ Electronics industry stalls and commercial products display
- ◆ Faculty of Engineering and Technology (FET) Tour
- ◆ Seminars and Student Interviews by experts from Industry and Academia

Note: Male visitors are not allowed in Female Campus and Females will not be entertained in Male Campus.

The Faculty of Engineering and Technology (FET) was established in year 2007 with Department of Electronic Engineering as its first constituent department. The foundation stone of an independent building block namely Engineering Block was laid in April, 2007 which was inaugurated in July, 2009. The present Electronic Engineering Department is one of the largest departments within the University with a thriving undergraduate and post-graduate student population of over 1000. This includes over 150 female students. The syllabus is continually under development and review, in line with the requirements of various professional bodies (Higher Education Commission and Pakistan Engineering Council) that accredit our programs. Mechanical Engineering Department is our most recent effort to gauge our students with cutting edge technologies and systems.

1- “MAIN EVENT”, 16th May, 10am to 4pm

The main event is to take place at the Electronic Engineering Department at the male campus and the female campus simultaneously. The projects of male and female students will be displayed in their respective campuses.

2- Students R&D project display and demonstrations

The projects from the final year students of the Department of Electronic Engineering will be presented. This show will help the students to seek their carriers in the industry or pursue for the higher studies. The Faculty members will also display their commercial and research related work/projects in the Open House.

3- Electronic industry stalls and commercial products display

Our esteemed guests/visitors from the Electronic Engineering Industry/Organizations are welcome to put up their stalls for new/developments and commercial products for exhibition. They can market their products on the occasion as well give technical demonstrations to the visitors. They will be provided space and help for this purpose on “first come first serve basis”.

4- Department of Electronic Engineering (DEE) Tour

A guided tour of the Final Year Projects (FYPs), Industrial Product Exhibition stalls and Facilities in Department of Electronic Engineering will be conducted for the visitors/guests by the Members of the Organizing Committee. All the guests will be received at the DEE entry door and program leaflets/information will be given to the participants.

5- Opportunity to coordinate with experts from Industry and Academia

It will be a great opportunity for all the Intellectuals, Industry Professionals and students alike to take maximum benefit from this “OPEN HOUSE”. Professionals from Industries/Organizations, Scholars from Academia and students will be presenting during this occasion to exchange ideas, discuss issues, seek job interviews, mark future course of R&D work.
