

IEEE Xplore Remotely

IEEE has enabled Remote Access

- Bring the devices on-site in which the users would like to access IEEE *Xplore* remotely
- Access the institution's WiFi (WiFi IP address must be listed on your IEEE *Xplore* account as an authorized, authenticated IP)
- Visit the IEEE *Xplore* website
- Go to My Settings, then Remote Access
- Follow the instructions to pair your device. Users will be asked to sign in with an IEEE personal account before pairing.
- This device can now be used off-site for 90 days to access IEEE *Xplore*. User must go to IEEE*Xplore* on the paired device and log in with their personal account to access the roaming subscription.

After 90 days, users will be prompted to again pair their device and can follow the same steps as the initial pairing.

For more information about Remote Access, please visit the links below:

<https://innovate.ieee.org/remote-access-available-for-ieee-xplore/>

<http://ieeexplore.ieee.org/Xplorehelp/#/administrators-and-librarians/account-management#remote-access>

and click on the following tabs :

- Administrators & Librarians
- Account Management
- Remote Access
